

## Pioneer

Dr. Subrata Kumar Banerjea is an internationally known clinical Homoeopath and leading academician who has regularly lectured around the world. Banerjea family has been dedicated to homoeopathy for three generations and Dr. Banerjea belongs to the fourth generation Homoeopath. His grand father had studied with Dr. J.H. Allen in America in the early years of the last century. He travels widely, lecturing on the miasmatic approach to prescribing and is a director of the Bengal Allen Medical Institute and Principal of the Allen College of Homoeopathy in Essex. This book aims to encompass philosophy, diagnostic classifications, clinical tips, a miasmatic repertory and a guide to the miasmatic 'weightage' of remedies, in six sections.

Dr. Banerjea graduated in Homoeopathy from the University of Calcutta and an author by the age of 24, Dr. Banerjea has written a number of books including Guide to Materia Medica, Clinical and Comparative Materia Medica, Brain Tumour Cured by Homoeopathy, Synoptic Memorizers of Materia Medica, and the widely acclaimed Miasmatic Diagnosis. His latest book "Miasmatic Prescribing" is

## Dr. Subrata Kumar Banerjea

published by Allen College of Homoeopathy in England. This new book gives a complete coverage on Miasms and includes interesting and informative chapters such as Miasmatic Repertory and Miasmatic Weightage of Medicines. Dr. Banerjea's insights into prescribing, with his magnificent grasp of the nuances of Materia Medica, make his medical lectures wonderfully rewarding to any level of student.

Dr. Banerjea is a honoured fellow of several academies, director and visiting lecturer of the Bengal Allen Medical Institute, Calcutta, Principal and Chief lecturer of Materia Medica, miasms and clinical therapeutics at the Allen college of homoeopathy, Essex, England. He resides in Chelmsford, Essex (England). He divides his time between his clinical practices in the UK and also periodically visits India where he acts as clinical consultant in various rural and slum clinics, as well as deliver seminars in various academies in different parts of the world.
